

Aero Safety Training Presents

In this seminar, an integrated view of cross country flying will be presented. Topics covered will include airworthiness, pre-flight planning considerations for short and long cross country flights, weather, execution of each phase of flight, voice and data communications, regulations, chart reading skills, and systems management. Click the link below and register TODAY.

Directions: Please park in the adjacent parking lot. The seminar will be held in the flight school conference room.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
